leonardokurtz A few days ago I was shooting my first project in 35mm. It's hard to describe the feeling of the rolling film in front of your eye, the energy that every member of the crew spread, the sincere respect for the medium.

Thank you fondly for the opportunity, bye bye Sicily.

“

Terre di Cinema was very well done. I was impressed by Vincenzo's vision and the students' commitment. Serious and professional, but conducted with improvisatory panache and a pleasingly casual, very Italian degree of intensity. Ellen and I enjoyed every minute.

- Garrett Brown ASC @Terre di Cinema 2014

The essential thing is learning how to render the director's vision into a cinematographic image, regardless of any different technical tools each cinematographer might be keener to adopt.

- Christian Berger AAC @Terre di Cinema 2016

“

I'm very happy to be at Terre di Cinema. You must shoot on film to learn about cinema. If you know how to treat film stock than you know how to make images and have full control of what you are doing. Shooting on film gives better colors, more depth and more realistic skin tones.

- Ed Lachman ASC @Terre di Cinema 2017

“

The thing that really struck me at Terre di Cinema was the passion and the intensity of the students from all over the world to learn more about cinema. And it was also a very nice situation to meet with my old friend Oliver Stapleton, with whom I worked when we both started our careers in film, and to realise how important that relationship was. The one between a director and a cinematographer is a very strong relationship, and I hope we shed some light on that for the students to take some encouragement and ideas from how we worked together.”

- Julien Temple @ Terre di Cinema 2019

TDC19 IN NUMBERS

From September 14th till 25th 2019, all the participants formed

10 international crews to shoot
short films in over

30 different historical and naturalistic locations in between
the Mount Etna and the town of Catania, involving

45 professional and non professional actors and
rolling more than

4000 mt of Kodak 35mm film stock.

OUR LOCATION

The CineCampus of Terre di Cinema takes place in the town of Catania and the Mount Etna in Sicily, one of Italy's most renowned touristic hubs. Blessed with magnificent mountain scenery and surrounded by strikingly clear, blue seas and amazing historical sites you will experience the local way of life breathing cinema at every moment. And if you like, it can become your starting point to discover Sicily and its fantastic artistic and cultural heritage.

We felt it impossible to part before sunset. Infinitely beautiful was it to observe this region, of which every point had its interest, gradually enveloped in darkness.”

- Johann Wolfgang Von Goethe, 1807

BECAUSE YOUR
VISION IS
#FILM WORTHY

One of the main features of the 2020 CineCampus is that **you will be shooting your short film on 35mm film stock** Vision 3 provided by Kodak Motion Picture Film. This is an invaluable learning experience and a fantastic creative opportunity at once. The 2020 CineCampus will take place from **July 25th to August 5th 2021** in the town of Catania. Both for directors and camera persons the activities of **MODULE 1** will be aimed at getting prepared for this. No previous experience with film stock is required but we will expect from you the highest degree of commitment and willingness to work intensively in order to get the most out of such a demanding Programme.

Following to the pitch session - during which you will form the crews of the CineCampus - the Camera department participants will be divided into 2 groups:

10 cinematographers and 10 camera operators. Cinematographers' classes will concentrate on lighting for film principles with a specific focus on each script. Camera operators will receive a more specific training on technical aspects, such as loading a magazine, prepping and lacing up the film camera, so that they can reach a working level of proficiency with film techniques.

Common activities to both departments will include masterclasses, location scouting, script breakdown sessions and general preproduction.

During **MODULE 2** each crew formed by a director, a cinematographer, a camera operator will shoot its short film within a 12 hours shift, assisted by the other participants covering the complementary crew roles, such as AD, 2nd AC, Gaffer and Key Grip. Sound recordists will be provided by our Programme. Ability to work under pressure, team spirit and preparation will be essential factors to be successful.

Besides his/her own short film: each director will also work at least in another short film as an assistant director; each cinematographer will also work at least in another short film as a gaffer; each camera operator will also work at least in another short film as a camera assistant. Usually each student ends up working on several short films besides his/her own main one.

Following to the shooting, your rushes will be processed and you will receive a Pro Res 422 telecine to edit your short film after the end of the CineCampus.

Each participant will be granted the right to use his/her rushes for their showreels, websites, presentations and so on. Each director will retain the rights of non commercial exploitation of the short film he/she directed. Any commercial use should be communicated and validated by our Programme.

Our main goal is developing your ability to fine tuning your creative ideas with the intrinsic values, limits and given circumstances of this Programme and to make the best of what you get.

It is true of any production at any given level of the filmmaking industry: you've got limits and you've got to do the best out of them. Problem solving, Thinking out of the box, working hard out of your safety zone: these are the challenges waiting for you at Terre di Cinema.

We will provide you with highly professional shooting equipment, ready to access locations and a range of volunteering professional actors. That is all included in the participation fee. On top of this, any extra costs you might deem necessary for your film regarding special costumes or props, locations and casting will be exclusively on you.
